A transit home for cancer outpatients and their carers

located at the National Cancer Institute,
Maharagama, Sri Lanka

**a home that gives
HOPE
and saves lives**

Our **courage, compassion** and **commitment** will make a difference

“there was not enough beds so my sick child had to take her treatment on the floor” *A mother*

Approximately 25% of the inpatients at the National Cancer Institute (NCI) in Maharagama Sri Lanka are outpatients who cannot afford to live in outside accommodation, or travel long distances to and from their rural homes for treatment. This results in overcrowding which leaves some outpatients and carers with no option but to sleep on the floors of the corridors, or under beds.

Cancer treatment such as chemotherapy weaken the immune system and hence sleeping on the floor puts these outpatients at far greater risk and reduces their chance to fight cancer.

Just imagine not having the basic comforts of a bed when going through the pain of cancer.

“At the CCC House I have my own bed and it feels so much like home. Sometimes I forget I am here for treatment.” *A child*

How CCC House is helping

CCC House is a 188 bed transit home for cancer outpatients and their carers. It is situated inside the premises of the Cancer Institute and allows outpatients easy access to their treatment. CCC House provides a safe and comfortable environment to ensure outpatients have a fighting chance for a speedy recovery.

Children and carers have rooms with attached bathrooms, and adults have dormitory style accommodation with shared facilities. Other facilities include, TV lounge, reading area, meals area, counseling room and play area for children. The CCC House management and staff are dedicated to the wellbeing of both outpatient and carer.

How you can help

CCC Foundation (CCC) is run by voluntary committees who are grateful to those who have supported and donated towards making CCC House a reality.

The CCC now requires funds to maintain the CCC House to ensure it provides the best possible service to outpatients and carers. Funds are required to cover costs such as staff salaries, cleaning and laundry services, security services, repairs and maintenance etc.

You can help by sponsoring the cost of a bed for a child, carer or adult for just Rs.160 a day or monthly installments of Rs.5,000. Please see overleaf on options to sponsor.
